

DEPARTMENT OF ELECTRICAL ENGINEERING

PLACEMENTS

More than 60% student from Electrical Department got placed in various Multi-National companies like Asian Paints Vedanta, L&T, Deloitte, MuSigma, GreyB etc. Highest package of 9.9 lakhs/annum was offered by Asian Paints.

INTERNSHIP AND FUTURE CAREER

It's a common myth among the students that an internship period is a vacation time. The fact is that an internship provides you the opportunity to work hands on in a professional environment and should be taken extremely seriously. Apart from this, internships are a way to test drive possible jobs and explore different career options. The interaction with the professionals expands your network and provides you with the new future possibilities. It provides a solid platform to your resume and teaches a lot about time management in the fast pace of the world. So, choose your internship programme wisely and make the best use of your time.

Internship & Future Career

AAYAM, 2018

Aayam, 2018, the annual techno-cultural fest of SGSITS, witnessed two grand events, "MEGA VOLTEGE" and "HUNT-SHUNT" conducted by the Department of Electrical Engineering. More than hundred students participated in each event.

“MEGA VOLTEDGE” was organized by “Sparkle,” the renowned club of Electrical Engineering Department. Both the events provided the students with a common platform to showcase their knowledge, intelligence while having fun. The P.G. group showcased their research work through the active participation in the “Poster Presentation.”

5 In order to promote higher forms of thinking, the departmental examination system will focus on the six domains of the Bloom’s Taxonomy, namely, remembering, understanding, applying, analysing, evaluating and finally creating. Henceforth, the examination preparation will require much more than the uncomplicated “remembering.”

6 Adish Meena, a second year student from the department is working on development of an Android based Mobile Application for the visually impaired. Till date he has achieved success in reading “alphabets” and is expecting success with “sentences” in a very near time. He presented his work to Hon’ble Minister of Technical Education & Skill Development, Shri. Deepak Joshi at SGSITS, INDORE.

Other Departmental News

1 Departmental faculty attended the “Faculty Development Programmes” (FDP) conducted by the TLC core team of IITM in collaboration with the experts from Texas A&M and Wipro Technologies. DP focused on current and emerging, teaching-learning methodologies /technologies.
